The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
Status					
1) Responsive to communication(s) filed on <u>17 September 2003</u> .					
2a) This action is FINAL . 2b) ∑ This	This action is FINAL . 2b)⊠ This action is non-final.				
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213.					
Disposition of Claims					
 4) Claim(s) 1-13 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5) Claim(s) is/are allowed. 6) Claim(s) 1-6,11 and 12 is/are rejected. 7) Claim(s) 7-10 is/are objected to. 8) Claim(s) are subject to restriction and/or election requirement. 					
Application Papers					
9) The specification is objected to by the Examin					
10) The drawing(s) filed on is/are: a) acc					
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).					
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.					
Priority under 35 U.S.C. § 119					
12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received.					
Attachment(s) 1) ⊠ Notice of References Cited (PTO-892) 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) ☒ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08 Paper No(s)/Mail Date 17 September 2003.	4) Interview Summar Paper No(s)/Mail I 5) Notice of Informal 6) Other:

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-6, 11, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Ashiba (US 5248014).

Ashiba discloses a two-stage shock absorber including a pressure tube defining a chamber 201, a piston member 202 slidably disposed within said pressure tube, said piston member dividing said chamber and a lower working chamber, a piston rod 207 extending through said upper working chamber and projecting out of said pressure tube, said piston rod being attached to said piston member, a first valve assembly 206 attached to said piston member, said first valve assembly permitting fluid flow from said upper working chamber to said lower working chamber through a first passage defined by said piston member, said first valve assembly restricting fluid flow from said lower working chamber to upper said working chamber, a second valve assembly 205 attached to said piston member, said second valve assembly permitting fluid flow from said lower working chamber to said upper working chamber through a second passage defined by said piston member, said second valve assembly restricting fluid flow from said lower working chamber to said upper working chamber through a second passage defined by said piston member, said second valve assembly restricting fluid flow from said upper working chamber to said lower working chamber, a housing 208 attached to said piston rod, said housing defining a pressure chamber; a piston 220 slidably disposed within said pressure chamber, said piston defining an upper fluid chamber within said

Art Unit: 3683

housing, a first bleed valve assembly 225 disposed between said pressure chamber and said upper fluid chamber, said first bleed valve assembly controlling fluid flow between said pressure chamber and said upper fluid chamber; and a third fluid passage 209 defined through said piston rod, said third fluid passage extending between said upper working chamber and said pressure chamber.

Re claim 2, see the chamber proximal to the end of the leader line from 219.

Re claim 3, see valve 214b

Re claim 4, see valve 222.

Re claim 5, see valve 213.

Re claim 6, see valve 221.

Re claim 11, see Fig. 19.

Re claim 12, see valve 213.

Allowable Subject Matter

3. Claims 7-10 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Deferme, Ashiba, Takagi, Imaizumi, Silberstein, Chano, and Corradini disclose related devices.

Art Unit: 3683

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Benjamin A Pezzlo whose telephone number is (703) 306-4617. The examiner can normally be reached on M-F 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Lavinder can be reached on (703) 308-3421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
